Product Highlights

Protective film solutions for virtually any surface!

Pregis PolyMask temporary protective films cover every major market and application, requiring surface protection during stages of manufacture up through shipping and final assembly.

What are temporary protective films?

- Pressure-sensitive adhesive coated film (aka surface protection film, protective tape, protective masking)
- Protects during various stages of processing & environmental conditions – adheres to the surface, stays adhered, and removes cleanly when the job is done
- Films can be applied to the surface by hand or through machine lamination

Call us today if you have a surface that needs protection!

What's new with Lakeland Supply?

Lakeland Supply is very honored to receive the "Inpro Corporation Spotlight Award" for being a top packaging supplier. On the left is Scott Mertins, Lakeland Supply Distribution Manager, and on the right is Mike Sekula from Inpro Corporation.

Scott Mertins
Lakeland Supply Distribution Manager

Hi, my name is Scott. I have been working with Lakeland for 4 years in our Distribution Center. I am also able to work with cross-functional teams across various departments. I believe our culture and commitment to do right sets us apart. Our family-style culture and commitment to work-life balance brings comfort and stability to our team members as well as our customers. Lakeland's commitment to community is a breath of fresh air often missing in today's very busy world.

I am fortunate to call the Lake Country area home as well. My children, Makyah (8) and Nahla (5), attend Lake Country School, which is one of the best schools in the entire state! We can often be found enjoying the many outdoor attractions from parks to the water. I am highly appreciative of Lakeland for the support offered so that I can be available for my family, which is truly what matters most to me.
